

## Rahul Shirsat

Rahul was born blind, educated in normal school and currently doing diploma in computer science, interested in learning foreign language and working in a call center

He has brilliant cognitive abilities, good in general knowledge and always tries to give his opinion on most subjects

***Without any tips, I was asked to photograph the visually impaired kids playing in a room. I had only 'sound' to base my judgment***

***I used my heart more than my mind to capture the silence than the noise***

Rahul

***For me staircase is 'tactile' pattern of steps***

***By taking photograph of my extra carefulness to put the first step out on the staircase, in unexpected way I have captured the reunion of 'tactile' pattern and 'visual' pattern***

Rahul

***As I became more and more familiar with the space of the Victoria Memorial School for the Blind, I could find interesting mix of classical and modern furniture and fixtures of the school***

***The contemporary designed chair next to a old styled big wooden door interested my to convey the co-existence of old and new in our lives***

Rahul

***I met my friends half way on the staircase, we chat and they left  
I would still hear them talk and then there was silence***

***Sound guided me to point the camera and 'click'  
Sound was my eyes***

Rahul
